- Floral Foam
- White Spray Paint
- Silver spray paint option
- Decorations for the tree

[Youtube Tutorial Link Here](#)

What we will do

1. Clean out and sanitize aluminium cans
2. Cut down branches of your choosing, and allow them to dry out if necessary
3. Place floral foam into the can
4. Insert the branches into the foam floral
5. Spray with spray paint
6. Decorate tree

Notes

Sapen can be seen lining the streets in Haiti during the Christmas season. They are constructed by artisans along with Fanal (Haitian lanterns). The Sapen are made from tree cuttings and painted white. The tree branches are installed into a small bucket of cement.

Have a blast creating your Sapen, and don't forget to share your masterpieces! Leave comments or tag us on social media when you showcase your fantastic holiday creations. Enjoy the festive season!
